CPA F400 SA

Indias first antenna distribution system with inbuilt spectrum analyser

Antenna Distributor Parameters:

* Frequency range: 450MHz --950MHz
* Total gain: 0dB, ±1dB
* Input/output impedance: 50 ohms
* Antenna power supply: +8V DC/150mA central point is positive
* DC output: 12V DC/3A(MAX)*4 groups of central point is positive

Directional Antenna Parameters:

* Can be used with antenna power supply function of the receiver and antenna distribution system.
* Antenna frequency range: 450-950mhz
* Amplifier frequency range: 450--950MHz
* Antenna gain: ≥6.5dB
* Amplifier gain: 0dB-15dB(+/-1.5dB)
* Antenna impedance: 50Ω
* Power supply: 8V, 40mA
* Output: OIP3>28dBm
* Connector port: BNC female head
